

# What Web Developers can Learn from Game Developers

Armin Ronacher for DJUGL June 2013

# Hello, I'm Armin!

I do Computers - with Python.

Currently at Fireteam / Splash Damage.

We do Internet for Pointy Shooty Games.

# Why is Python not used in Games?

Slow?

~~Slow?~~

C & C

# Community & Concurrency

someone starts  
gets successful  
others follow

someone starts  
gets successful  
others follow

and that's why everybody used PHP

nobody has been fired for choosing unreal

60FPS ≈ ~16ms

# Each Actor runs a “Thread”

work -> suspend -> wait -> work -> suspend -> work -> ...

The Industry Standard

Lua

C#

*JavaScript*

Unreal Script

# Playstation 3

256MB + 256MB RAM

3.2 GHz Processor

6 + 1 SPUs

# Playstation 3

256MB + 256MB RAM

3.2 GHz Processor

6 + 1 SPUs

that's not a lot

Core #1

Core #2

Core #4

Core #5

Core #6

Core #7

Task Queue

#1

#2

#3

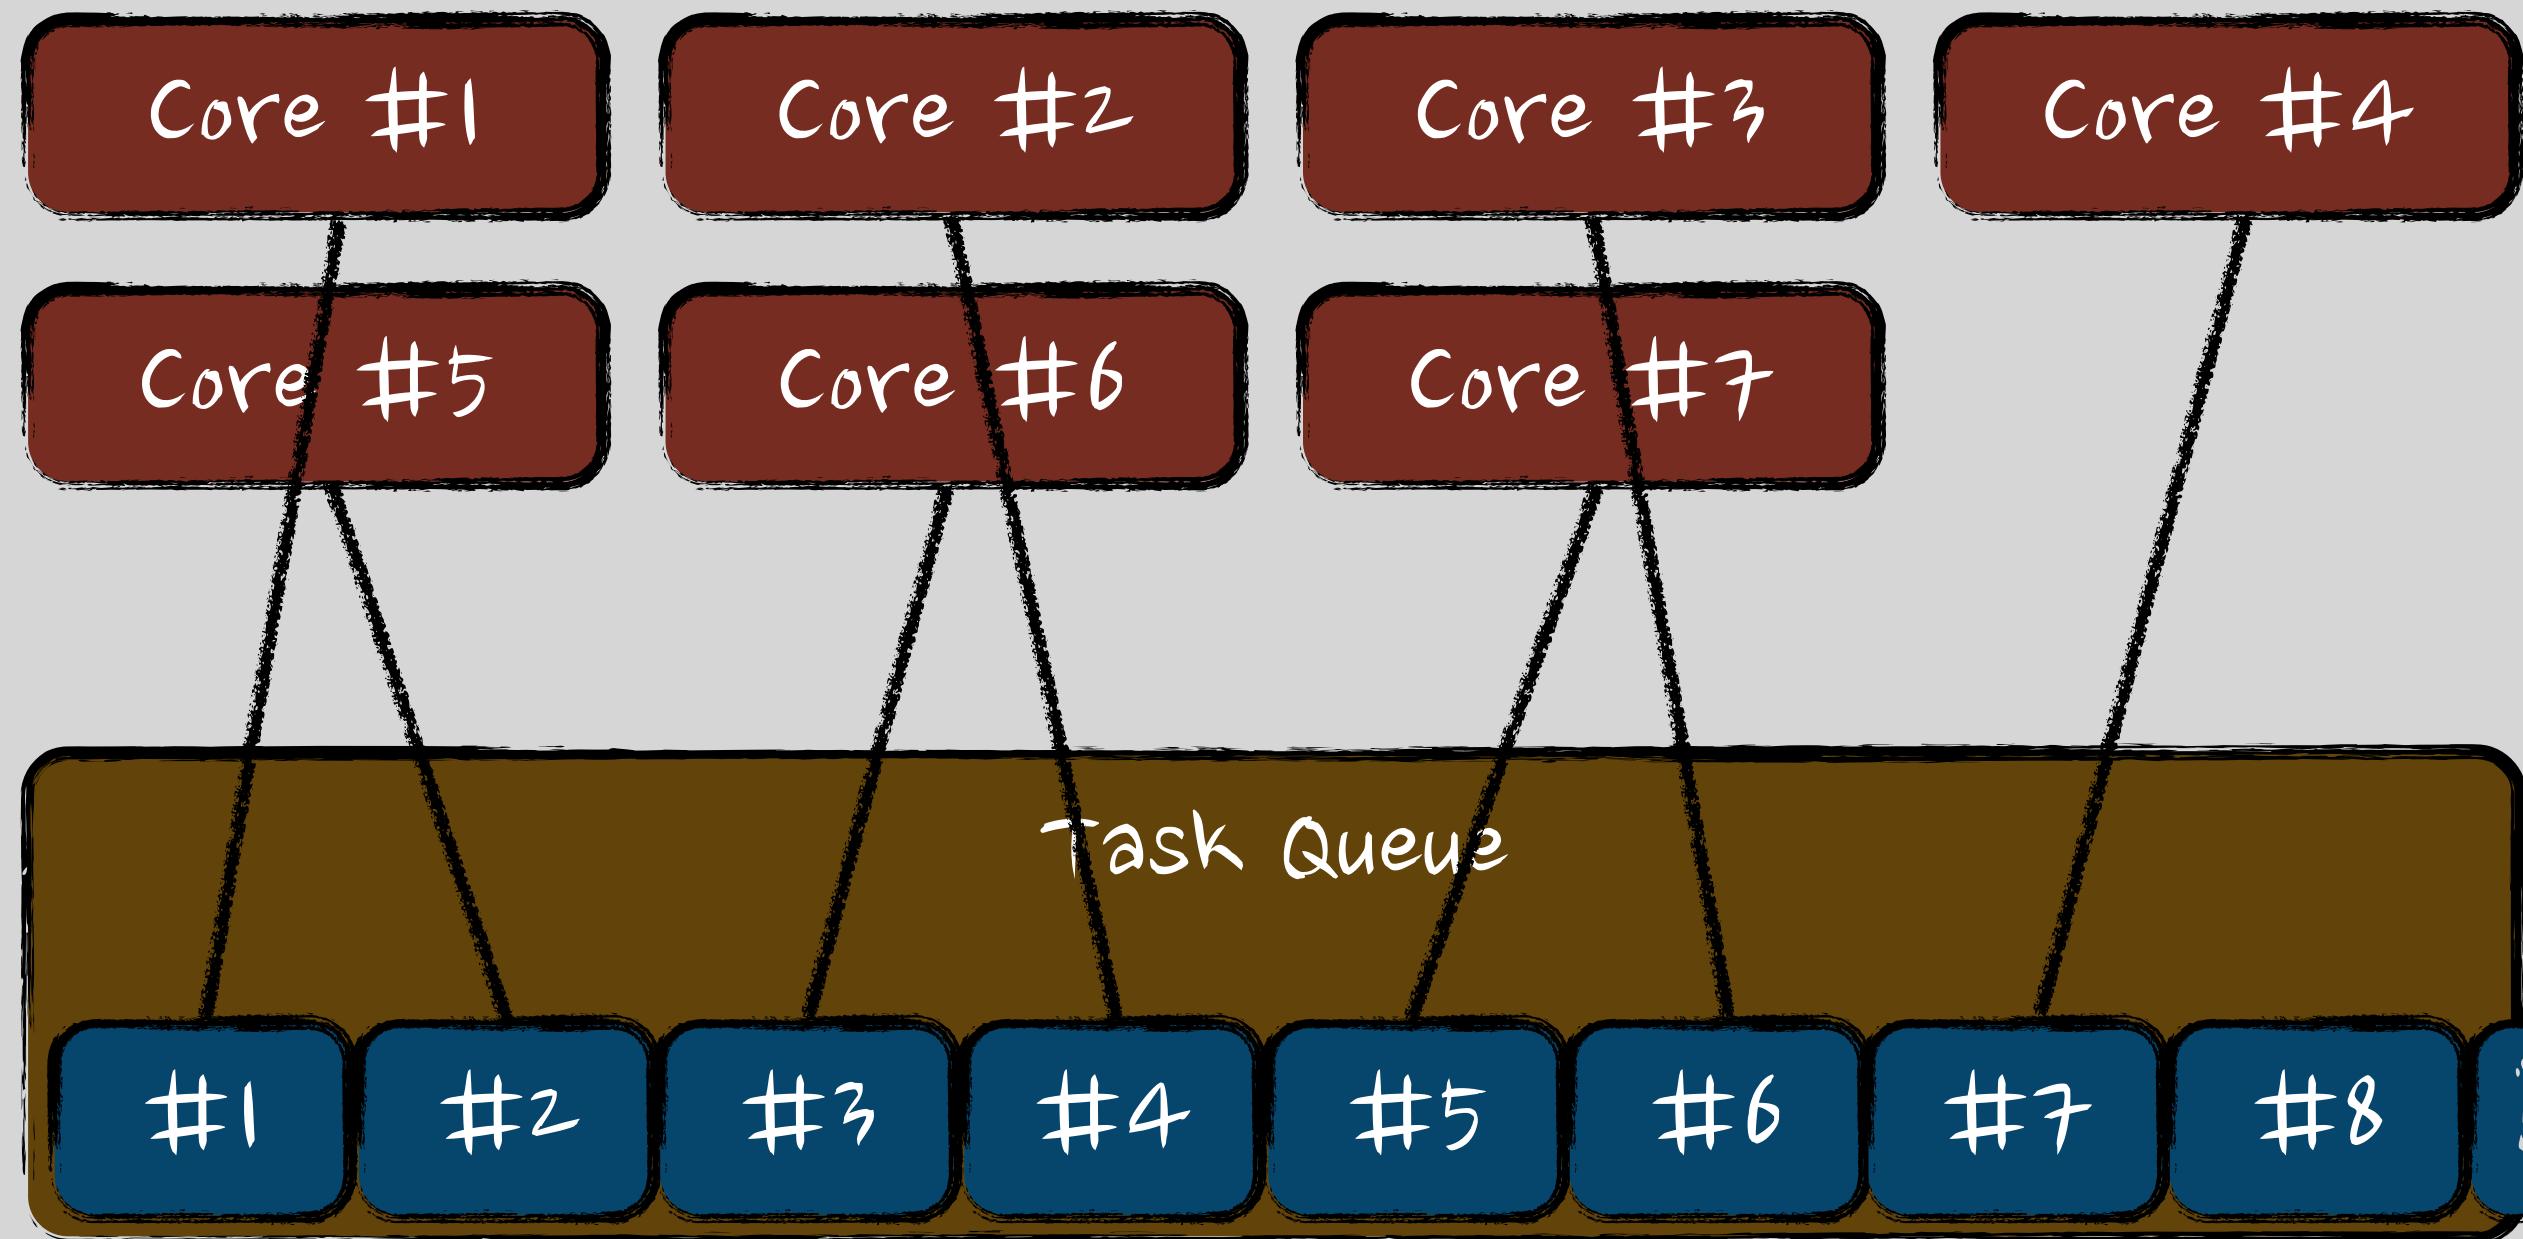

#4

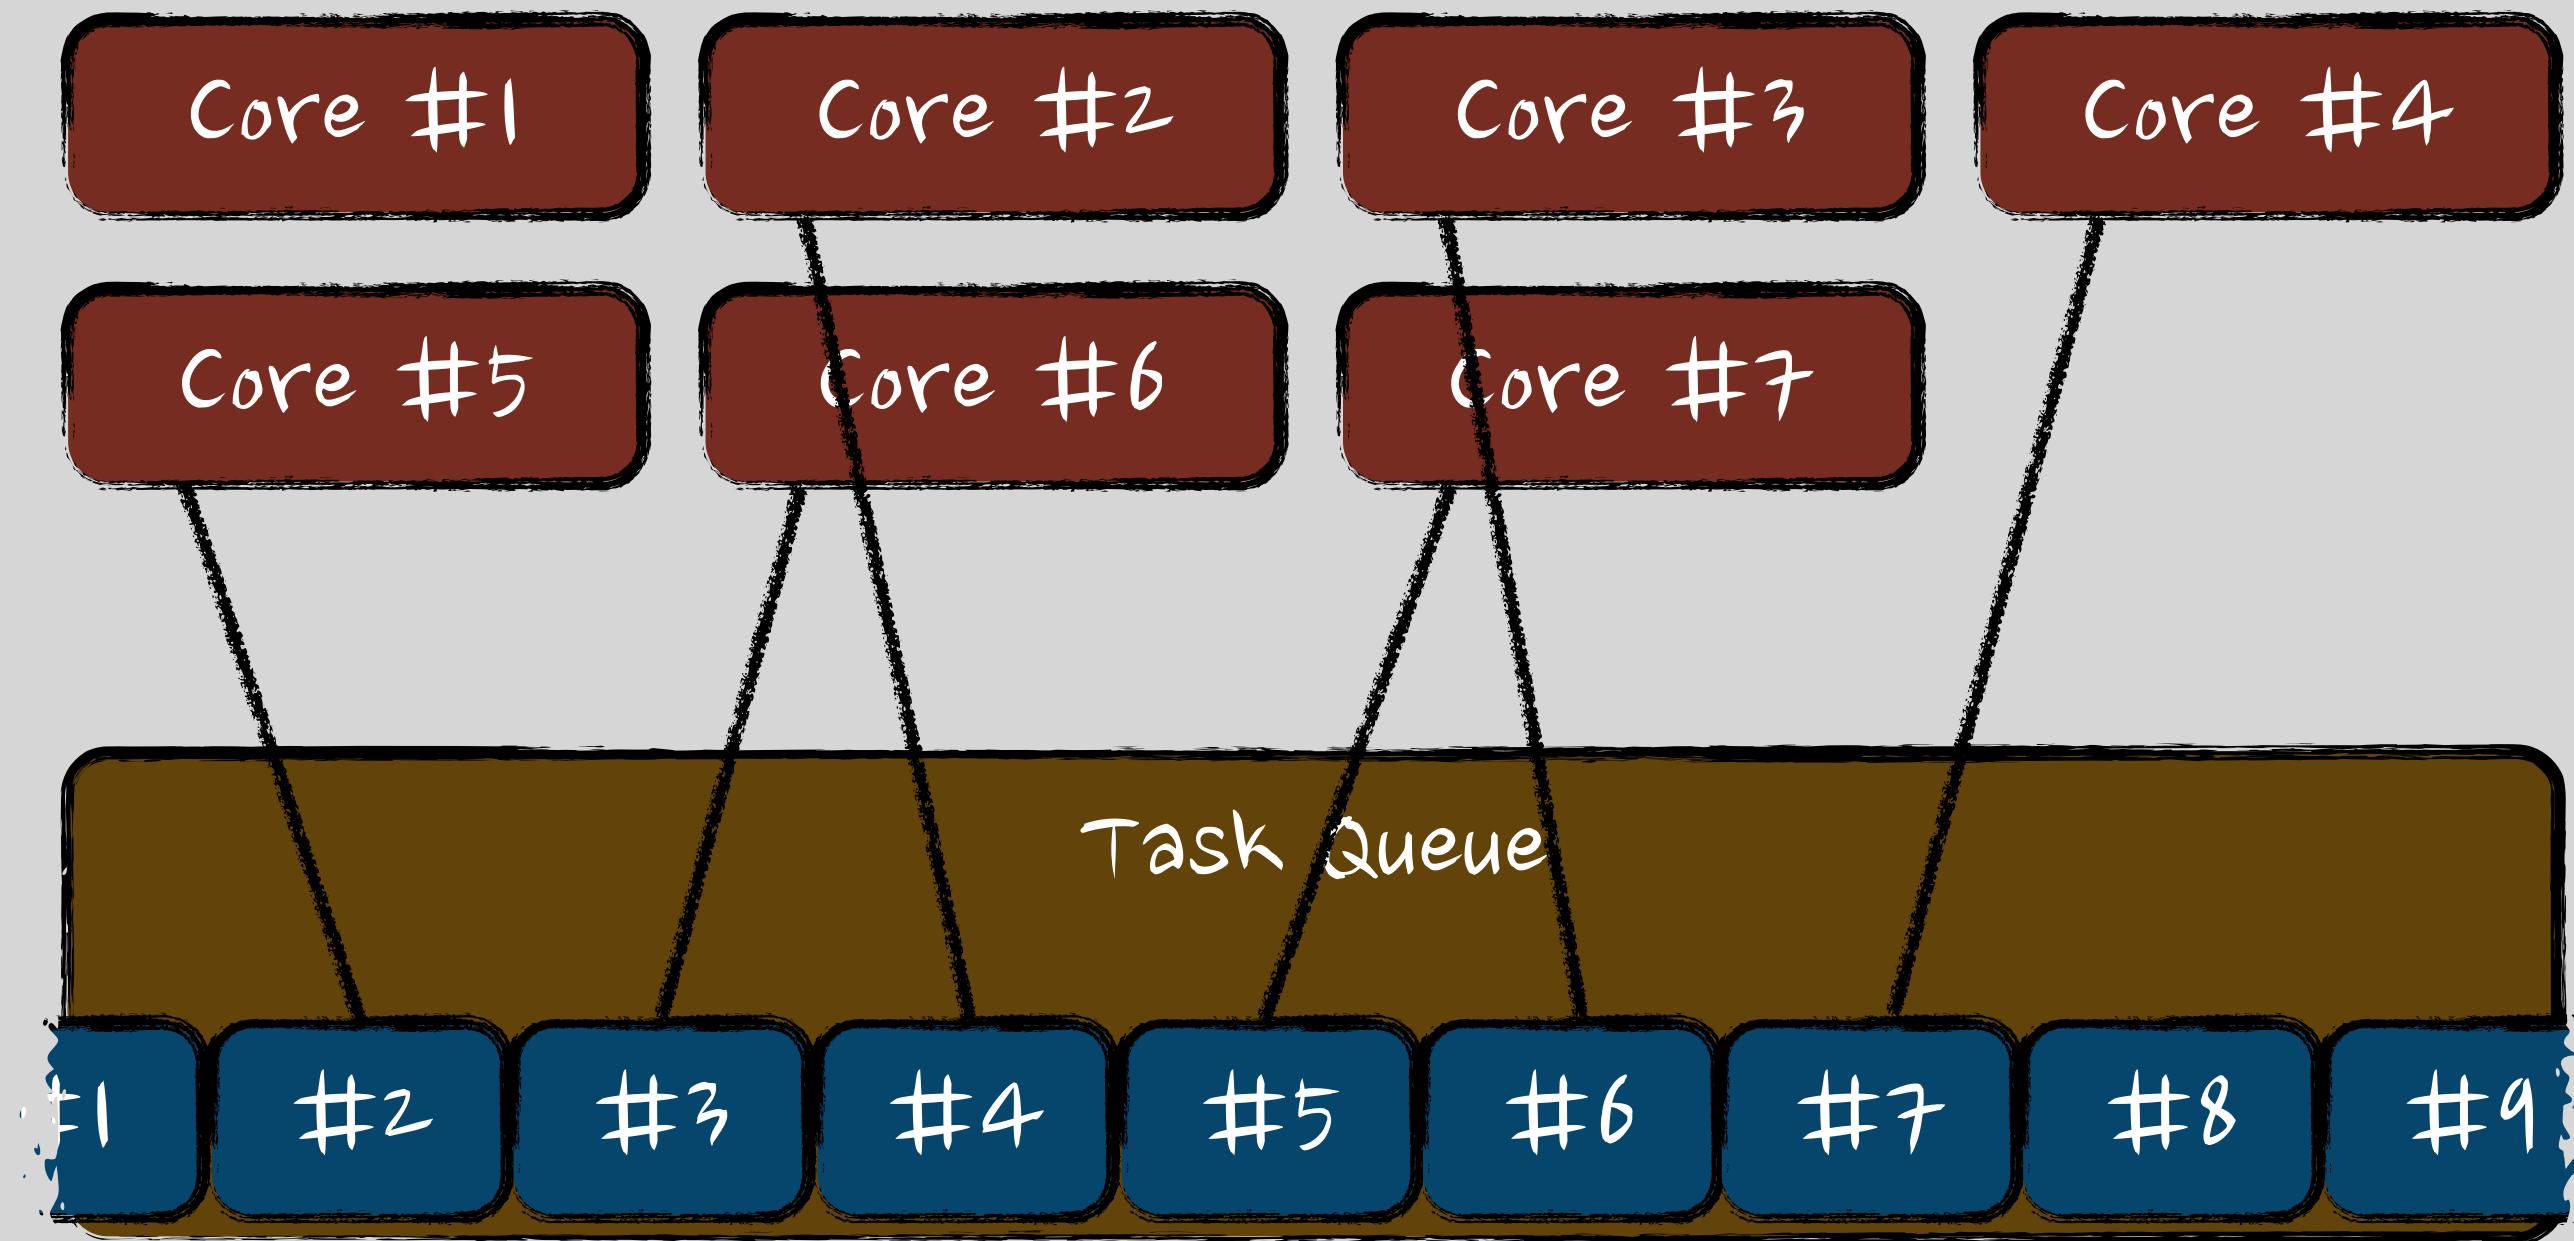

#5

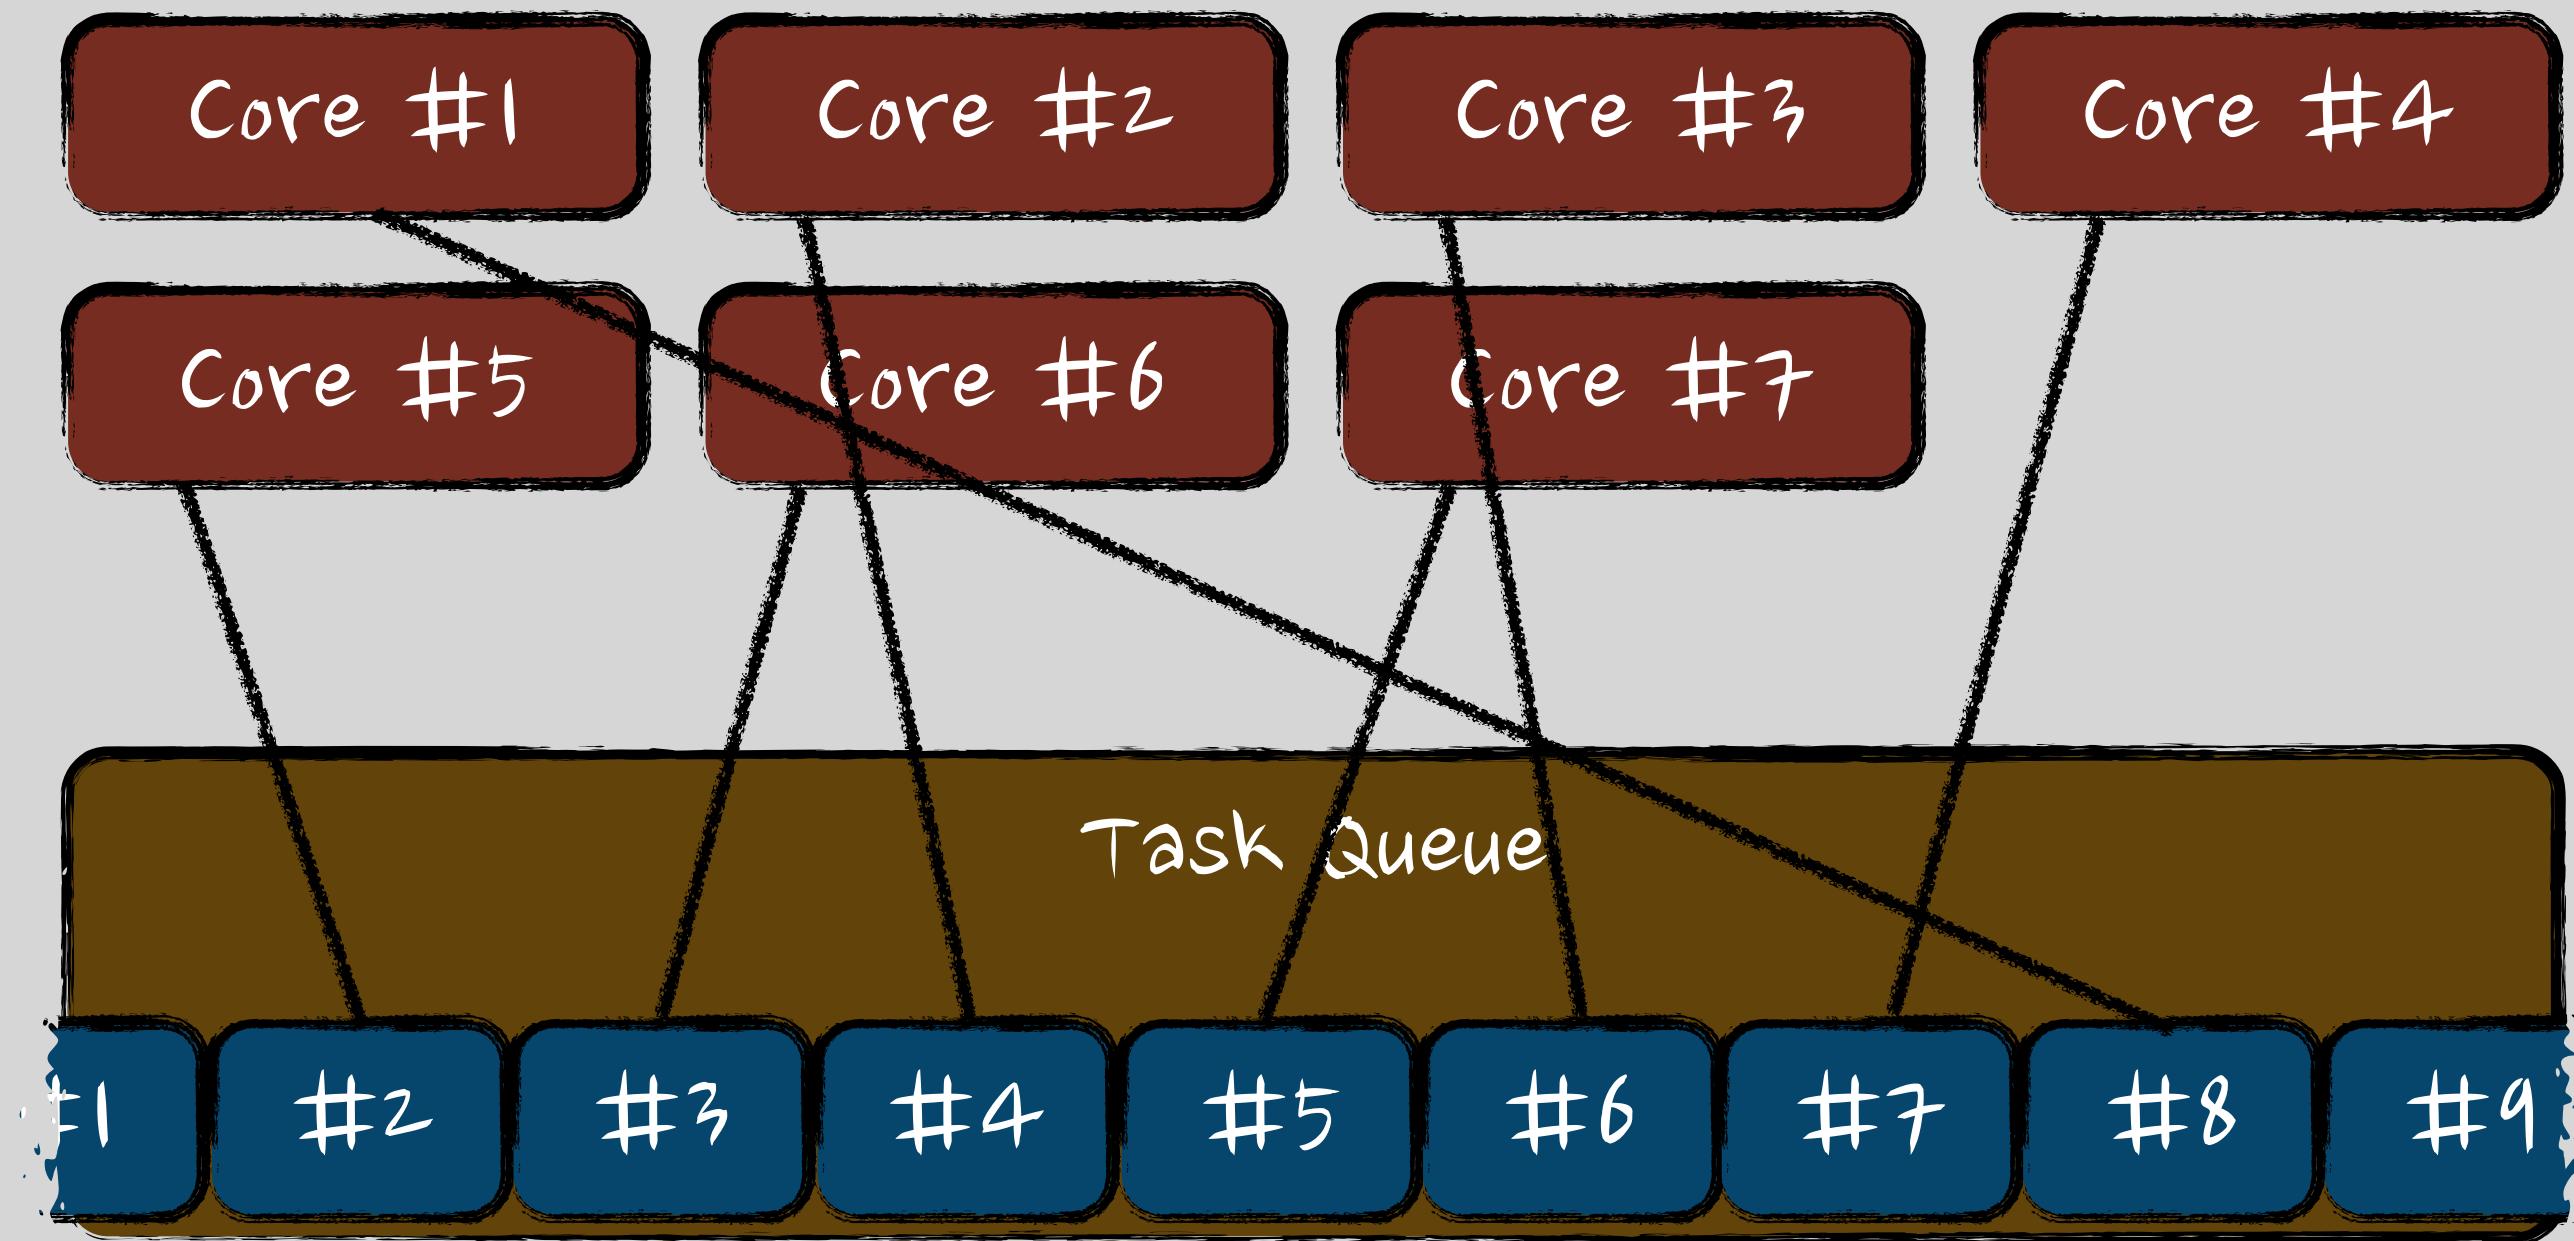

#6

#7

#8

What does that have to do with Web?

Remember the Heroku Rap-Genius Incident?

Task Queues >> Random Routing

we do things because others do it too

*and that's not always good :-(*

Python is not going to get better at  
concurrency :-(

Queue all the  
Things!

ALL THE THINGS!

Optimize the right things

Tools are Important

That's it.

Now ask questions.
